

distinctly

abode

" Good kitchen sink & tap design is not just about utility problem solving. It is about creating beautiful and practical objects that can perform in the home over the long term. They should stand out within your décor design but also integrate invisibly within your overall kitchen scheme. Our challenge as designers for Abode is to deliver the right mixture of simplicity, elegance and innovation in equal measure "

Paul Illingworth – Abode Designer

The Abode ranges of kitchen sink work-centres and mixertaps are created for people who want the perfect blend of design, performance and sheer quality in their homes without an enormous price tag. All Abode products are lovingly hand finished and tested in our factories prior to the journey to the centre of your kitchen and your daily life.

DISTINCTLY DETAILED

Each and every detail on an Abode sink and tap serves a purpose. Every form performs a function beautifully. And at the heart of every creation is the requirement to balance innovation, utility and versatility with pure, unadulterated style.

*" It's the small details that are vital to our designs.
Small changes and innovations allow big things to happen "*

FUNKTIONALITY ASSURED

All Abode products use the finest materials & components, from high grade stainless steel through to glass covers and our anti splash aerators at the end of the tap spout – every item is designed to improve the experience of using our products. These small things might not be immediately noticeable but add up collectively to make a good design, great.

ART & CRAFTSMANSHIP

Central to all Abode designs is the precision and art of the craftsman. Exacting attention to detail and carefully controlled manufacturing ensure that your new product will exude a refined quality and serve you well.

KITCHEN SYNC INTEGRATION

Abode sink and mixertap designs are created to work together in harmony, integrating to offer a combined logic and enhance performance.

PRODUCT INNOVATION

New intelligent ideas improve the aesthetics and ergonomics of the sink area, making the products both practical and stylish. The use of glass, granite, steel and ceramic in our designs also brings the very best materials and natural textures into your home.

DETAIL & SPECIFICATION

Many years of experience in designing kitchen products help to ensure that our designers create with your circumstances, environment, needs and uses in mind. It is the small detail that ensures perfect performance every time.

CARE & ASSURANCE

Complete peace of mind is our minimum guarantee with all Abode products. Our comprehensive warranties are created to ensure that you will continue to be delighted with your products over their lifetime. The Abode warranty on all kitchen sinks is 10 years and on all taps and mixers it is 5 years. See page 170 for more detail.

UNDERCOVER CLASSICS

Abode offer a wide range of under-mounted sinks and bowl solutions manufactured from quality materials such as ceramic, stainless steel and advanced hardwearing composite materials. Our ranges are designed to offer either a combination approach or for individual installation, that will seamlessly coordinate with your kitchen décor.

MATRIX R0

Matrix R0 under-mount stainless steel sinks bring a sharp geometry to the kitchen, complementing popular appliance and kitchen styling. The 1mm thick 18/10 steel Matrix R0 sink range is designed to enable a combination approach to your sink layout or for single product installation.

MATRIX GR10

Matrix GR10 sinks offer designers a unique flexibility. They can be under-mounted with the tap deck exposed, covered or fully inset into the worktop from above. Matrix GR10 sinks are manufactured from advanced acrylic materials. The black material has a metallic granite fleck, adding additional sparkle. The bright white granite offers a tough durable and easy clean finish that will coordinate perfectly with any kitchen décor.

Accessories are available from www.abode-shop.co.uk

Abode offer a wide range of sinks which inset into the worktop in a wide variety of different materials, bowl configurations, colours and styles. Choose from stainless steel, composite granite or ceramics.

"Design must be an ongoing effort, a process of continually learning about users, responding to their behaviours, and evolving the product or service to meet these ends"

The central theme of the Aspekt sink series is to offer stylish 'mix and match' options to the user. Take either one or any number of sinks in combination to create the perfect space for food preparation and entertainment.

XCITE

Strong geometric designs with sharp corners and the defined straight drainer pattern are the back bone to the design of the Xcite family and certainly on trend with current design themes. Manufactured from advanced acrylic materials this will certainly form a focal point in any kitchen.

TYDAL CERAMIC

Nature is central to the design of the Tydal range of ceramic sinks. So it's only natural that we have chosen to use the finest fireclay in the production process to create this truly unique and award winning design. With it's sweeping main bowl sculpture, clean draining areas and uncluttered tap decks designed for sliding glass boards, the sink is a modern classic.

MAXIM STEEL

The unparalleled simplicity of the clean lines and smooth drainer on the Maxim design creates a unique contemporary style. When you complement this with sliding glass covers available in a range of finishes, the Maxim manufactured in 18/10 grade stainless steel, becomes an unobtrusive yet stylish alternative to more standard sinks.

CONNEKT FLUSHFIT

Introducing Abode's latest innovation, the ultra slim, flush fit or inset sink range. Connekt Flushfit with its ultra thin edge detailing delivers a sleek, contemporary look to any chosen worktop. Teamed of course with a distinctive drainer pattern and not forgetting the premium 18/10 grade stainless steel material, this is quite simply an all round stunning design.

CONNEKT FLUSHFIT SINGLE BOWL & DRAINER INSET SINK

(Reversible)

AW5058 [£239.00]

CONNEKT FLUSHFIT 1.5 BOWL & DRAINER INSET SINK

(Reversible)

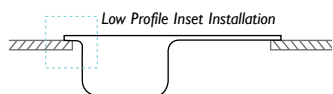

AW5059 [£299.00]

This sink can be fitted perfectly flush fit at the same surface level as the worktop by insetting. Alternatively it can be fitted conventionally as an inset with extremely stylish low-profile edges. Either option creates a minimal look which will be easy to keep clean.

WATER SOURCES

*" It is all about enabling ideas and processes,
making products approachable, usable,
desirable and memorable "*

FUNKTIONALITY ASSURED

All Abode kitchen taps use the finest components, from silky smooth valve cartridges to our anti splash aerators at the end of the spout – all are designed to improve the experience of using our taps. These small things might not be immediately noticeable but add up, collectively to make a good design, great.

WATER AERATION

All mixers use spout aerators or flow straighteners to add bubbles to the water leaving your tap. These innovations in fluid technology keep your water flow in a controlled and distinctive pattern and eliminates splash back. Simple ideas, refreshing benefits.

VALVE CARTRIDGES

All Abode cartridge designs are tested for over 200,000 cycles before we will pass them for use within our taps. Why? Well this means that under normal use conditions your tap valves have proven that they will work for many years to come. The kitchen tap is the most used appliance in the kitchen, so valve quality assurance is essential.

FINISHING QUALITY

We use traditional artisan hand polishing techniques which ensure perfect blemish free surfaces and crisp edges. Our hand treatment does not end there – we use hand plating for Chrome, Nickel and Bronze plating. Yes we know it is more expensive to do it this way, but it means that the finish is richer, the plating deeper and ultimately more durable.

LUXURY PACKAGING

After taking all this care with the product, we want to ensure they reach you in perfect condition with all the parts that you will need for a seamless and straightforward installation. Fixing kits and tail pipes (with non return valves where necessary) are provided and designed to seat neatly within a standard 35mm tap hole. If the tap is heavy or tall, we also provide you with a tap stabilisation bracket in the box. We try and think of everything so you don't have to.

COMPREHENSIVE WARRANTY

Such is our dedication and reputation for quality, we offer a Comprehensive 5 Year Warranty on all our mixertap products, from our least to most expensive designs. We cover the materials used and valves for 5 years from the date of installation. For more details refer to page 170.

"Like most design, tap design is about mixing aesthetics with functionality. With Zucca, the handles gently reach towards you, rotating at the exact angle that suits your wrist."

DISTINCTLY MODERN

Contemporary taps characterised by clean design lines, modern shapes and smooth effortless water control.

" Good modern industrial design begins with simple honesty, asks difficult questions, benefits from supplier collaboration and ultimately arrives from trusting your intuition "

SLIMLINE TAPS

Strong linear lines give these designs a particular character and strength of presence.

DISTINCTLY HERITAGE

The heritage ranges of kitchen brassware are inspired by, but not living in the past. The inspiration for the collection comes from the classic era of British design and manufacturing; refined & distinctive styles that will bring lifelong brilliance to your home.

“ Good designers generate ideas,
great products improve on them ”

HERITAGE TAPS

Taps reflecting a golden era in brassware design, with curvaceous shapes and fluid lines forged in the past, but with the technology utilised in manufacture very much of today. The Astbury range features real ceramic handles for that extra finishing touch.

DISTINCTLY STEEL

A natural choice - contemporary stainless steel tap designs are the perfect complement to steel sinks and kitchen appliances. Hygienic and supremely practical they will retain their natural lustre for years.

"Excellence is not a skill, it is a company philosophy & attitude"

Cool to the touch and the eye, this solid stainless steel tap offers the perfect partner to Abode kitchen sinks; steel, ceramic or composite.

**STALTO
PROFESSIONAL**

ATI 199 Stainless Steel [£436.00]

 Min 1.0 bar pressure required

PROPUS SINGLE LEVER

ATI 070 Stainless Steel [£237.00]

 Min 0.5 bar pressure required

NOVAR MONOBLOC

ATI 197 Stainless Steel [£248.00]

 Min 0.3 bar pressure required

QUALA SINGLE LEVER

ATI 198 Stainless Steel [£216.00]

 Min 0.4 bar pressure required

STAINLESS STEEL

"It's all about refinement. It's about taking an idea and improving this time and again, getting it sharp and perfect. Then you've got something."

STAINLESS STEEL

Elegant and sophisticated, precision perfect engineering in solid stainless steel.

TAURA MONOBLOC

ATI 137 Stainless Steel [£280.00]

 Min 0.3 bar pressure required

GINO SINGLE LEVER

ATI 138 Stainless Steel [£302.00]

 Min 0.5 bar pressure required

DIAGON SINGLE LEVER

ATI 105 Stainless Steel [£258.00]

Min 0.5 bar pressure required

IGNUS SINGLE LEVER

ATI 104 Stainless Steel [£248.00]

 Min 0.5 bar pressure required

"Diagon offers a different slant on kitchen mixertap design. It encapsulates a different view of the world without losing the simplicity of shape and simplicity of function. Concept work becomes reality."

DISTINCTLY FILTERED

Multi award winning Abode 'Aquifier' filtered water solutions for you and your family.

TRIANA AQUIFIER

Winner of 'Designer' magazine most Innovative Product award for 2012, the Triana Aquifier filter tap fuses contemporary styling with modern valve innovation. Simply turn the black collar to release a separate supply of cold and refreshing freshly filtered water whilst using the side lever control in the normal way. Refreshingly logical really, some might say hydro-logical!

TRIANA AQUIFIER

- AT2033** Chrome [£413.00]
- AT2034** Brushed Nickel [£449.00]

Min 0.5 bar pressure required

Turn central body for independent supply of filtered water. Pure genius!

Full starter filter kit supplied.

Tap shown AT2033 Triana Aquifier Chrome [£413.00]

ATLAS AQUIFIER

Tap shown AT2004 Atlas Aquifier Brushed Nickel [£367.00]
Sink shown AW5017 Matrix R50 1.5 Bowl Undermount [£309.00]

GOSFORD AQUIFIER

The Gosford & Atlas Aquifier filtered water mixertaps benefit from Abode's unique integrated water filtration technology, allowing the flow of hot, cold and filtered water through the same spout and using just two handles, maintaining its design balance and elegance.

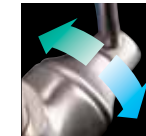

GOSFORD AQUIFIER

AT2005 Chrome [£335.00]

AT2006 Brushed Nickel [£356.00]

Min 0.3 bar pressure required

Push the cold lever
back for filtered water

ATLAS AQUIFIER

AT2003 Chrome [£347.00]

AT2004 Brushed Nickel [£367.00]

Min 0.3 bar pressure required

Push the cold lever
back for filtered water

Full starter filter kit supplied.

HANDSPRAY

A selection of useful, functional and practical accessories are available from Abode including pull out handsprays in a variety of contemporary and classic styles, flow limiting valves, fast fit tail pipes and spout attachments that bring additional functionality to your mixertap. It's the little things that make the difference.

HANDSPRAY RINSE

- AT1100**
Chrome [£92.00]
- AT1101**
Brushed Nickel [£102.00]

Min 0.5 bar pressure required
Max 2.0 bar pressure

AXELL HANDSPRAY RINSE

- AT1107**
Stainless Steel [£108.00]

Min 0.5 bar pressure required
Max 2.0 bar pressure

HENDON HANDSPRAY

- AT3040**
Chrome [£145.00]
- AT3041**
Pewter [£165.00]

Min 1.0 bar pressure required
Max 2.0 bar pressure

A practical pull out rinse unit with a 1.2m long hose will sit alongside any Abode kitchen mixertap and can be fixed independently of your kitchen tap to rinse and spray items. Our range incorporates modern, classic and stainless steel models – an option perfect partners to all kitchen mixertaps.

AQUIFIER FILTER CARTRIDGE

Premium Filtration – 5 Micron filter density. Capacity is 5600 litres / 1500 gallons (an average 6 months family usage). Specially formulated high absorption activated carbon media.

- AT2002** Cartridge [£37.50]

HIGH RESIN FILTER CARTRIDGE

Premium filtration & scale reduction – 5 Micron filter density. Capacity is 300 to 1800 litres dependent on water hardness (an average 3 months family usage).

- AT2040** Cartridge [£37.50]

TAP SUPPORT BRACKET

The tap stabilising bracket is designed to brace the tap to the worktop underside, thereby helping to reduce the movement of tall or heavy taps on stainless steel sinks. Please check compatibility before ordering.

- AX1011**
Stainless Steel [£10.00]

ACCESSORIES

RAPID FIT TAIL PIPES

Rapid Fit tail pipes have been developed by Abode in conjunction with John Guest International. The range of 600mm long wide bore flexible LLDPE tail pipes and 'Speedfit' connection parts enable the simple DIY installation of all the the monobloc and single lever mixertaps in the Abode range. The rapid fit tail pipes take all the soldering and fiddly plumbing away and leaves a simple and speedy installation process.

The rapid fit tails are available in both 10mm and 12mm connection sizes. Check the icon next to the product when ordering to ensure you have the correct inlet size.

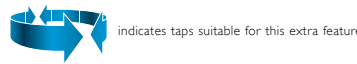

- AT1167** 10mm Fast Fit Tails [£21.00]
- AT1168** 12mm Fast Fit Tails [£21.00]

REVOLVE AERATOR

A swivelling joint that attaches to the end of your existing spout. This device allows you to precisely direct the flow of water from your tap into the bowl allowing thorough bowl rinsing and also helping to reduce splashing and water wastage.

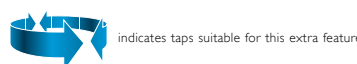

- AT1060** Revolve Aerator [£7.00]

JETSPRAY AERATOR

All the benefits of the Revolve Aerator with the added feature of a twin water pattern selection. Simply twist the end to choose between jet or spray pattern. Ideal during food preparation, rinsing cookware and also environmentally friendly, reducing water wastage from the tap. Available in Chrome and Black finishes.

- AT1140** Chrome Jet Spray [£21.00]
- AT1141** Black Jet Spray [£21.00]

FLOW CONTROL VALVE

When installed this simple device limits your maximum water usage to 6 litres per minute when your tap is operating fully, resulting in a reduction of water usage and therefore your water and heating bills. The valve has a built in non return valve feature so can be used in conjunction with any Abode tap. For more information on reducing water and energy wastage visit our website www.abodedesigns.co.uk/flow

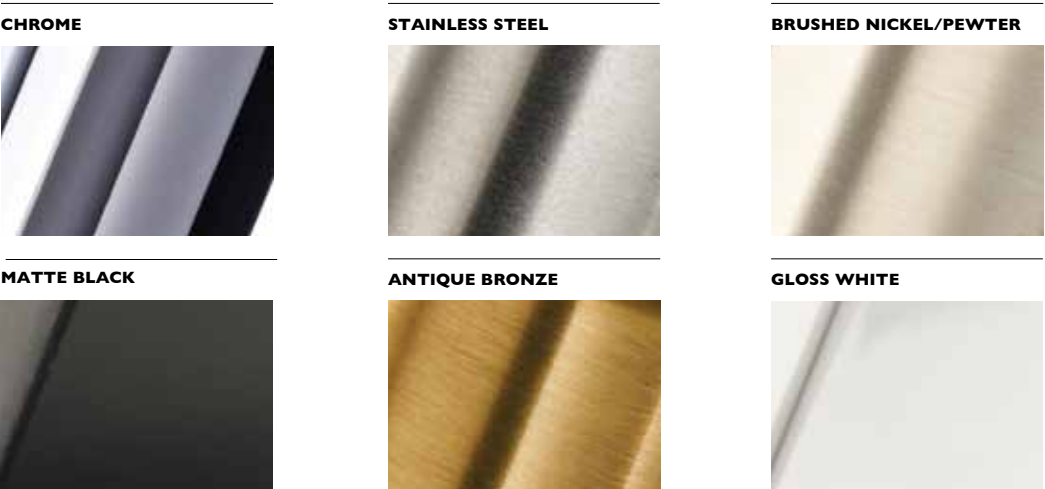

- AT1142** Flow Control Valve [£10.00]

SINK FINISHES

TAP FINISHES

All Abode products are hand finished and plated to the highest standards, ensuring that your kitchen mixertaps will continue to retain its factory supplied sheen for years to come.

WARRANTY & CARE

WARRANTY

Comprehensive 5 Year Warranty

In the unlikely event that you should experience any defect in the materials or workmanship of your new

- Abode sink within 10 years of purchase
- Abode mixer within 5 years of purchase,

the purchaser's sole remedy shall be the replacement (at the manufacturer's discretion) of all or any part of the product that is defective.

For the tap, all working parts and valves are guaranteed for a period of 5 years from purchase. Decorative surface finishes and O-rings are guaranteed for 1 year from the date of purchase provided that our advice concerning care has been observed and no scouring agents have been used.

This is provided that the sink, mixer or tap has been used for normal domestic purposes and that the care, installation and maintenance instructions have been observed. The warranty extends to the original purchaser only.

CUSTOMER CARE

Water Regulations

All products are designed in accordance with European Water Regulations and are manufactured to WRAS or other applicable European standards. All products should be installed in accordance with Local Water Bye Laws.

Technical Support

Choosing the right mixer tap and sink for your home is an important choice as the tap is not only the most architectural item in your kitchen, but also the most used.

Think about the style you require, the ease of use you are looking for, and then consider your existing water supply and the water pressure available to you. If you have any questions with regards to whether a tap will be suitable for your application, please contact our technical support team or visit our website www.abode.eu for more details.

For sinks, consider the material and colour you prefer, the uses of the sink, the number and bowl sizes, the type of worktop material you propose to use and the base unit space available to install within.

Your long-term satisfaction with the product is important to us. In the event that you require spare parts for your tap, please contact our technical support team or visit our web site for further technical information.

The small print

Our policy is to continually improve and develop our products, and accordingly we reserve the right to amend specifications, particulars of weights, measures, prices, dimensions, finish and colour availability without prior notice. All prices include VAT at 20% and are the Manufacturers' recommended prices only

Errors and omissions excepted.
